

AK Stal Ostrów Wielkopolski wins the U13 tournament

The last, eleventh tournament of the U13 category was won by the home team AK Stal Ostrów Wielkopolski, winning gold medals and a ticket to the final tournament. The second team, which secured an invitation to the final tournament with its performances, is Válečníci Děčín.

Friday's program began with the home team, whose opponent was the WKK Wrocław team. The home team took control of the match from the beginning and walked away with a clear victory without any problems. In the second match, UKS Piatka Ostrów Wielkopolski team, which completed the tournament participants due to the absence of Beks from Pardubice, clearly defeated the Czech team Královští Sokoli Hradec Králové. The third match of the day, which offered a Czech derby between the teams BK Brandýs nad Labem and Válečníci Děčín also had a clear course for the team from North Bohemia. A great deal of bad luck was chosen by the WKK Wrocław team in this tournament, which lost its three matches in the tournament by the narrowest possible difference of a single point. The first on Friday was against UKS Piatka.

Then on Saturday with Hradec Králové and then with Brandýs nad Labem. On Saturday, an imaginary duel for gold medals took place between the home team AK Stal Ostrów Wielkopolski and the team Válečníci Děčín. The home team managed the first quarter better, then found themselves under great pressure from the warriors from Děčín. However, the warriors failed to turn the game around and so the home team won the gold medals. The warriors had to fight hard once again for silver medals with the team UKS Piatka Ostrów Wielkopolski, where they won the victory only in overtime.

On Sunday, the favorites only confirm their position in the table.
