

Crailsheim celebrates a win in the inaugural U13 tournament

The opening tournament of the U13 category brought a lot of drama and a number of close matches. The victorious German team secured the triumph only in the last match of the two undefeated teams, in which they won after extra time.

The four teams played many balanced and dramatic matches. The other two teams were a bit behind them, but their duel for 5th place also brought good drama and ended with a difference of only one basket.

But even greater drama took place in the first match on Sunday, where the undefeated HAKRO Merlins Crailsheim and BC Swiss Krono Żary teams met. The Polish team secured extra time with a basket a second before the end, in which, however, the German opponent ruled.

The fight for third place already took place in the first Friday match between Válečníci Děčín and Sršni Písek . In the end, the players of Válečníci Děčín were more fortunate in the balanced ending, who took home the bronze.
