

## Písek is the winner of the U17 tournament in Lučenec

***At their first U17 tournament of the year, the Písek players ended without a win, but this time they wrote a completely different story. They clearly dominated the first two days and lost only in the last match, which could not change anything about their triumph.***

Thus, Sršni Písek significantly improved their overall record, when they went from 0-4 to 4-5 after this tournament and are back in the game for the final tournament.

The silver goes to Poland to the continuously leading team of the WKK Wroclaw competition. This time, however, even the leader had to bow down to the winner of the tournament, who gave him his first loss of the year.

Thanks to the final victory over Písek, the German team Science City Jena completed the podium. Although the Germans lost the opening match of the tournament in extra time against the home team AKAPO Lučenec, the hosts paid the price for a somewhat unexpected loss against BK NH Ostrava. After all, it was Ostrava's only win in the tournament, but it did not change anything in their last place. Thanks to a better mutual match, the second Slovak team MBK Karlovka Bratislava got ahead of them.

### Final standings of the tournament:

1. Sršni Písek (Czech Republic)
2. WKK Wroclaw (Poland)
3. Science City Jena U16 (Germany)
4. AKAPO Lučenec (Slovakia)
5. MBK Karlovka Bratislava (Slovakia)
6. BK NH Ostrava (Czech Republic)
