

Ostrów Wielkopolski won the U13 home tournament

The young players of the Stal Ostrów Wielkopolski basketball academy had a superb run through the home tournament, overcoming all their opponents and taking a well-deserved first place.

The seventh tournament in this age category offered a number of very close matches, and teams that were at a relatively similar level of performance came to Poland.

As already mentioned, the home team dominated the tournament without much hesitation and decided almost all the matches in the first half. The only exception was the match with BA Young Diamonds , who did not win any matches in the tournament, but surprised the home team in the beginning. After the first quarter they led 21:13, but in the next phase of the match they could not face the strength of the home team and lost to them.

The direct battle for silver took place on Friday between the German team UBC Münster and the Czech team Sokol Dubeč . For three quarters, Dubeč managed to keep up with their German opponent, but in the end they no longer had the strength to turn the tables.

What the boys from the Czech Republic failed to do on Friday, they made up for in their last match on Sunday against the Polish WKK Wroclaw . The dramatic duel ended with a single-point difference of 50:48. Wroclaw ended up just short of the podium.

Another dramatic and balanced duel took place in the fight for at least one win in the tournament between two Czech teams. In the end, the players of BK VIVIDBOOKS Pardubice were happy with the 46:41 win, which finished in 5th place with honorable success. The Young Diamonds academy closes the table without a win, but they lost 4 out of 5 matches by a relatively small margin of 11 points.

Final tournament standings:

1. AK Stal Ostrów Wielkopolski (Poland)
2. UBC Münster (Germany)
3. Sokol Dubeč (Czech Republic)
4. WKK Wroclaw (Poland)
5. BK VIVIDBOOKS Pardubice (Czech Republic)
